Out-of-home placement is the last option considered when reasonable efforts to protect a child in his or her own home have been exhausted by OCS. The first preference considered in all out-of-home placements for a child or youth is a relative's home. When it is not possible to place a child with a relative it is necessary to place the child in a licensed foster home. Residential care facilities may offer short-term emergency shelter as well as more long-term residential treatment. A single child may experience more than one setting type in a given month.
